

SAFETY

FEATURE

Stop Leaks Faster than Ever with Petro-Block

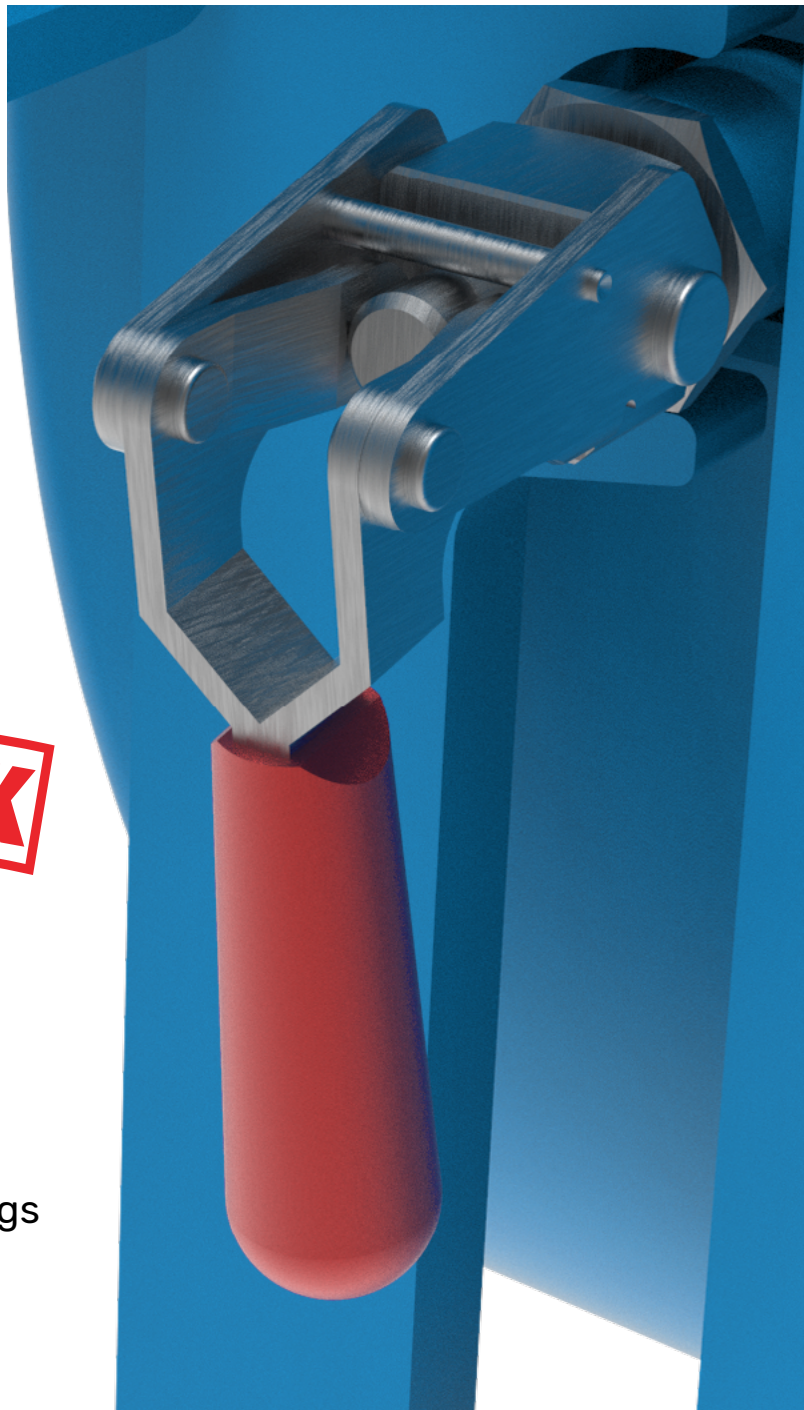

See a leak?

Pull the handle.

Plan the repair.

Requiring only seconds to activate,
Petro-Block is 99% effective in
keeping the product where it belongs
... in the tank!

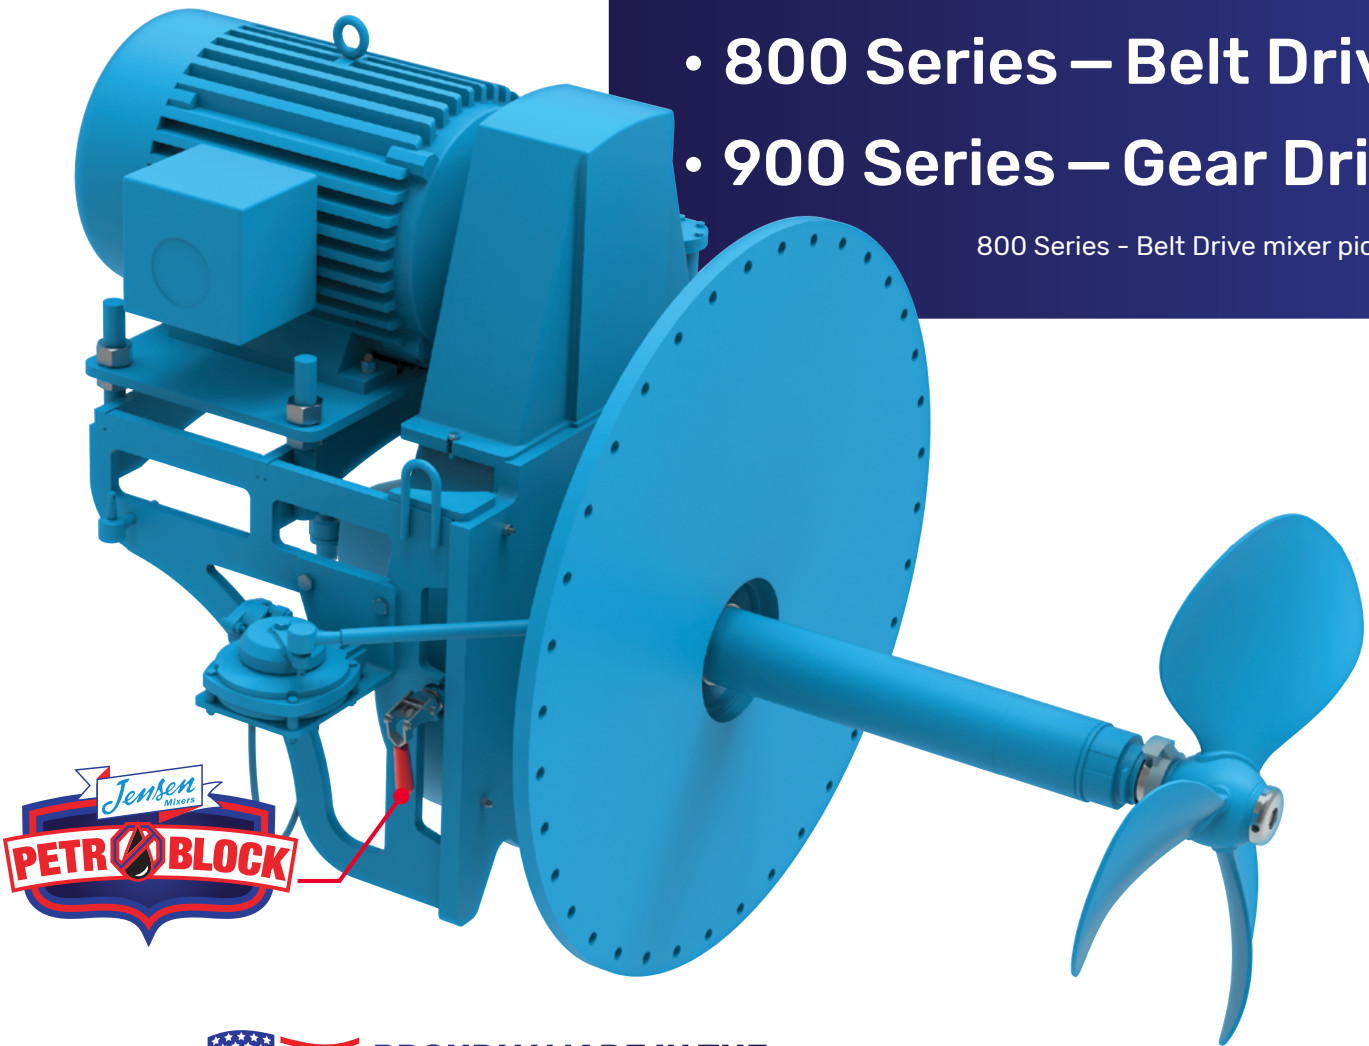

Petro-Block is revolutionizing the way you stop a leak on a side-entry mixer.

- **Petro-Block** will buy time for your team to come up with a solution.
- The simplicity of **Petro-Block** will save you manpower; a single pull plugs the mixer.
- Creates a new level of safety for crews in the field.
- Convert emergency repairs into minor inconveniences.
